Nakanoshima
Cross

KENTO

In the area spanning Suita city and Settsu city, urban development is being promoted under the concept of "Health and Medicine." Centered around two national research institutions - the National Cerebral and Cardiovascular Center and the National Institute of Health and Nutrition - companies and organizations are gathering to advance open innovation in the field of health and medicine.

- The National Cerebral and Cardiovascular Center (NCVC) is a medical center with a hospital and an institute for research and medical training.
- The National Institute of Health and Nutrition (NIHN) is working on research and development with the goal of achieving a society where people live healthy and long lives.
